GENERAL INFORMATION

MILLANE NURSERIES & TREE EXPERTS, INC. are located at Cromwell, Connecticut, on the Cromwell Road between Hartford and Middletown. An old reliable and unique company. Over twenty-five years in the same location. One of the few companies *growing a complete* assortment of *specimen, quality* nursery stock offering a *complete* landscape service, large tree moving service and offering expert tree surgery, trimming, spraying and feeding services. One of our representatives will be glad to call without obligation. Phone Middletown 2152, or, visit our nurseries.

Prices in this list cancel previous listings and are subject to change without notice. Stock offered subject to prior sale. Prices include loading on trucks at our nurseries, or, are F.O.B. Cromwell, Connecticut and include packing, except on special, bulky pieces for which packing will be charged extra at cost. Five trees or plants at the ten rate; twenty-five at special hundred rate. Prices on all evergreens and any other items marked B & B include careful digging with a ball of earth which is securely wrapped in burlap. Other items *not* marked B & B can be so dug at an additional charge.

Clients are invited to personally select their trees and plants. Selection of extra specimen stock will be priced accordingly.

All stock is free of injurious diseases and insects. Our nurseries are regularly inspected by Federal and State authorities.

All Millane nursery stock receives the best of care and attention — transplanted and root-pruned at regular intervals, regularly trimmed and sprayed and cultivated. It is poor economy to plant an inferior tree.

Abundance		
Burbank		
Damson		

*Millane's offer Expert Tree Surgery. Trimming,
Spraying and Feeding Services.*

TREE SURGERY, SPRAYING AND FEEDING

TREE SURGERY — Trimming, bracing and cavity repair should be entrusted to an established reliable firm employing trained and experienced men. In such hands, your trees will be healthier, stronger—to withstand wind and storms, and be longer lived. Damaged trees can be helped greatly by proper tree surgery.

SPRAYING — Insects and disease can be effectively controlled by correct methods of spraying with proper spray materials at the right time.

FEEDING TREES is sensible and practical. Under present conditions, particularly with lawn trees, it is necessary to resort to artificial feeding. The results of laboratory tests and commercial operations under varying conditions during the last twenty-five years show definite benefits result from feeding — again provided suitable nutrient combinations are used by men who know.

Millane Nurseries & Tree Experts, Inc., have been doing this work for twenty-five years and are equipped today with several of the latest high-powered sprayers, have kept pace with the latest scientific developments and employ trained and experienced men in this department. We can guarantee to give you the finest workmanship and the benefit of our knowledge and experience at very reasonable cost.

One of our representatives will be glad to discuss your problems without obligation. Phone Middletown 2152, or visit our nurseries.

LARGE TREE MOVING

With complete modern equipment and many years of experience, Millane Nurseries are able to offer the best in Large Tree Moving Service. The combination of experience and proper equipment (which is expensive) is highly important to the successful transplanting of mature trees.

The planting of a few (even one) large trees on a property produces an immediate effect at reasonable cost. It gives scale and age to the planting, shade in the desired spot. It means immediate enjoyment and use rather than waiting years for small trees to grow. You'd be surprised at the relatively small cost.

Our representative will be glad to explain this service in detail. Phone Middletown 2152 — or visit our nurseries.
